Fitter's Edge® feed is perfect for young cattle, yet flexible enough to feed all the way through. This feed has been a key element in our success!

Finishing Touch® feed puts the bloom and the finish we desire on our cattle. The Golden Nuggets are the key to providing fat and energy to our ration. It's the complete feed we trust!

Full Control™ feed is the best holding ration I have ever used. Cattle will stay full and fresh without getting too fat. Maintaining cattle on Full Control™ feed and grass hay is easy...and it works!

Grand 4-T-Fyer™ feed concentrate is a versatile built-in-roughage base we use to create our own custom show ration. From the creep feeder to the show barn, our cattle are fat, stay full without loose stools, and are always ready to show.
